### 3-POINT HYPEREXTENSION BRACE / JEWET

Lightweight aluminum construction  
Unique spring-controlled "floating" pelvic band continually adjusts as the patient changes from a standing to a sitting position, without compromising the brace function. Thorocolumbal pad can be positioned either horizontally or vertically  
Adjustment slots on the uprights and the sternal component allow simple and convenient height and width adjustment without component removal  
Aluminum bars padded with soft foam and vinyl covered. "Plus" closure in strong nylon material  
Adjustable posterior straps

Size: S, M, L, XL

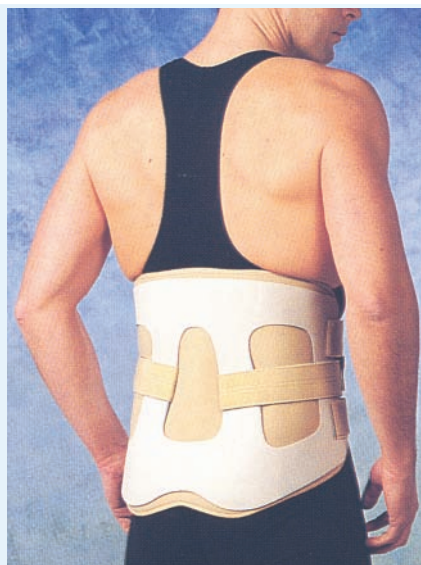

## DE-10900 ALUMINIUM DISC

## DE-1189
